

# My Virtual Safety Training **eLEARNING** Catalogue 05

New Leaf Technologies

# My Virtual Safety Training Catalogue

All courses are fully customisable

The catalogue showcases modules crafted to incorporate blended learning approaches and are specifically customised to fulfil the learning objectives of South African health and safety training in compliance with local regulations and standards.

The catalogue features an array of safety training subjects tailored to the South African context, delivered through a blend of e-Learning modules and interactive simulations or animations. Inside, you will find more details and an extensive selection of these subjects, specifically designed to educate, engage, entertain, and empower learners in today's South Africa.

# Course **Listing**

All courses are fully customisable

Confined Space: PRCS Awareness

Electrical: Burns, Electrocution, and Shock

Earthmoving Equipment Awareness

Fall Protection

Fire Extinguisher Inspection

Ladder Inspection

Lockout/Tagout (LOTO)

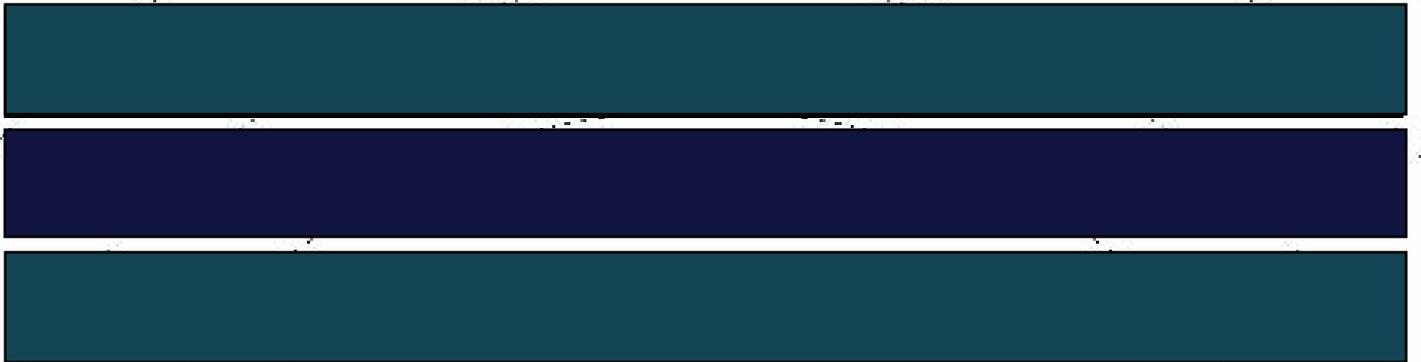

Machine Guarding

PPE Hazardous

PPE Respiratory

# My Virtual Safety Training Catalogue

All courses are fully customisable

The modules outlined in this catalogue are thoughtfully developed to support blended learning styles within the South African context. The learning objectives for each course follow the compliance-based guidelines set by the Occupational Health and Safety Act (OHSA) for General Industry safety training topics.

Every subject features an eLearning module combined with an engaging interactive simulation or animation activity. Explore further for in-depth information and an extensive collection of safety training subjects, expertly crafted to enlighten, captivate, and empower modern learners.
